Al-Ameen Yahya Harande

Full Stack Software Engineer · CTO · Data & Infrastructure Engineer

Kano, Nigeria

alameenaminu321@gmail.com · alameenyh321@gmail.com · 08165350095 · 08141174853

Professional Summary

Full stack software engineer and technology leader with 8+ years of experience building and running software across healthcare, logistics and enterprise services. Currently Full Stack Software Engineer at Hayok Medicare, Senior Software Engineer at Asataura Technology Services, and CTO of LoadWise Logistics.

Builds production web applications (React, Next.js, Node.js), large-scale data pipelines in Python processing 700,000+ health-insurance enrollee records, and cloud infrastructure on Microsoft Azure. Comfortable owning a system end to end: requirements, architecture, delivery, deployment and day-to-day support for client teams.

Core Skills

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, Vue.js WordPress, UI/UX (Figma, Canva)
- **Backend & data:** Node.js, PostgreSQL, Supabase, REST APIs, Django, firebase, Laravel
- **Data engineering:** PyMuPDF, ReportLab, openpyxl (streaming/write-only for 700k+ row files), python-calamine, pypdf, LibreOffice batch conversion, Excel
- **Cloud & DevOps:** Microsoft Azure (VMs, service principals for CI/CD), Linux server administration, SSH access management, Git, domain and web hosting (cPanel/Bluehost/Verpex)
- **IT & networking:** LAN/WAN setup, Android device fleet/kiosk management (Samsung Knox), Starlink, hardware and software support
- **Practices:** Data quality and de-duplication, technical proposals and solution architecture, data-protection compliance (NDPR)
- **Currently developing:** AI engineering — LLM APIs, RAG pipelines, vector databases

Professional Experience

Hayok Medicare — Full Stack Software Engineer

2026 – Present · Kano

- Develop, deploy and maintain the company's healthcare software, owning features from requirements through production support.
- Develop and maintain DFH project(Digital Finance Hub)
- ANC Antenatal Care projects
- Planned the kiosk-mode deployment of 100+ Samsung Android tablets locked to the KSCHMA portal using Samsung Knox, and supported the ICT WorkHub upgrade.

LoadWise Logistics — Chief Technology Officer

2025 - Present

- Lead technology strategy and delivery for the LoadWise logistics platform.
- Manage Microsoft Azure infrastructure, including the production virtual machine, service-principal–based CI/CD and secure SSH access for DevOps collaborators.
- Own domain, DNS and web hosting for loadwise.com.ng.

Asataura Technology Services (ATS) — Senior Software Engineer

2024 – Present (joined as Web Developer & IT Officer)

- Build frontend and full stack applications with React.js, Next.js, Node.js and WordPress for internal and international client projects.
- Write technical proposals and solution architecture, e.g. a multi-service marketplace platform for Abuja (Supabase/PostgreSQL, Android and iOS, NDPR compliance, phased IP handover).
- Support ASAT Digital Academy tech bootcamps, including the Holiday Tech Bootcamp run with MySlates.
- Provide systems maintenance, troubleshooting and IT support.

Salaam TV Nigeria / iHarande Global Services — IT Officer, Web Developer & COO

2020 – 2024

- Oversaw IT infrastructure and web projects; managed operations and supervised media and tech teams.
- Delivered WordPress websites and business automation tools.

STEMLAB (NYSC) — E-Library & IT Support Officer

2022 – 2023

- Digitised library systems and supported ICT infrastructure.

Federal College of Education, Kano (SIWES) — IT Support, JAMB MIS Unit

2017 – 2018

- Handled JAMB online registration and system management; supported MIS functions and computer science tutorials.

Mediwat School of IT — Computer Practical Instructor

2014 – 2015

- Mentored students on software and hardware projects.

Selected Projects

- **Claimify** — Automated monthly register for 644+ facilities and 700k+ enrollees; Python, ReportLab, openpyxl, PyMuPDF.
- DFH - Digital finance hub project
- **LoadWise** — Logistics platform; architecture, Azure hosting and CI/CD.
- **Multi-service marketplace platform (Abuja)** — Solution architecture and proposal: Supabase/PostgreSQL, Android and iOS apps, NDPR compliance.
- **International client products** — Melka, MySlates, MySlates360, ASAT Academy, PaySadaqa and a custom CMS, MySlates
- **SCMC School Management System** and a **Student Portal** with authentication and course management.
- **E-commerce, landing pages and WordPress sites** for clients across sectors.
- **LAN Review Project** — Documentation and simulation of a local area network architecture.

Education

- **B.Sc. Computer Science & Information Technology** — Bayero University Kano, Second Class Honours (2015 – 2019)
- **Diploma in Computer Science & IT** — Bayero University Kano (ICE Programme), Second Class Honours (2013 – 2015)
- **Integrated Professional Diploma in IT** — Mediwat School of Computer Science, Kano, First Class Honours (2012 – 2013)
- **Senior Secondary Certificate** — Staff Secondary School, Bayero University Kano (2006 – 2012)

Certifications

- NYSC Discharge Certificate (2023)
- Data Analyst certificate 2026
- Professional IT Diploma — Mediwat School of IT (2013)
